Eisenhower Core Curriculum

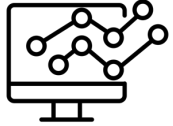

Key Academic Outcomes

Hone Strategic Leadership:

Apply critical, creative, and design thinking to support strategic level decision-making and effectively communicate strategic concepts across Government.

Develop National Security Strategy:

Apply theory, principles, and concepts of war, strategy and resourcing to assess the global security and economic environment and develop national security and defense strategy and policy.

Evaluate, Marshal, and Manage Resources:

Evaluate domestic and international industry, and the government-private sector interfaces that support the national innovation and defense industrial base, to develop and execute resourcing strategy.

Eisenhower Learning Outcomes

Upon completion of the ES, graduates will have demonstrated the ability to:

1. Apply critical, creative, and design thinking to support strategic level decision-making and effectively communicate strategic concepts and ideas across Joint, Interagency, Intergovernmental, Multinational (JIIM) and industrial base environments .
2. Apply principles governing the profession of arms, civil-military relations, and ethical application of instruments of power and statecraft to strengthen warfighting and strategic capabilities that advance U.S. national security aims.
3. Apply theory, principles, and concepts of war, strategy and resourcing to employ all instruments of power across the spectrum of competition, conflict, and war.
4. Assess the global security and economic environment to develop national security and defense strategy and policy.
5. Apply joint planning processes, systems, and resourcing to support the development of globally integrated operations, theater strategies, and campaign plans.
6. Evaluate domestic and international industry, and the government-private sector interfaces that support the national innovation and defense industrial base, to develop policy recommendations and resourcing options.
7. Evaluate, marshal, and manage resources to execute strategy, mobilize, and achieve national security objectives.
